### INNOVATIVE STREET MAINTENANCE FOR WESTWOOD

**WHAT/WHEN:** Street Maintenance work will begin in Westwood May 28 with an application of a thin (less than one inch) asphalt layer on top of the existing pavement. No work is planned for curbs, driveways, or sidewalks. This will be the first municipal application of the sealer in the State of Ohio. The work is scheduled to be completed by the end of July 2002. During construction, Westwood Northern Boulevard will have both lanes open eastbound from 7:00 to 9:00 a.m., and westbound from 4:00 to 6:00 p.m.; at other times, one lane will be open in each direction.

The Department of Transportation and Engineering oversees the rehabilitation and improvement of streets in the City of Cincinnati. The Department is also responsible for transportation planning, design, engineering services, structural and geotechnical services, right of way regulation, and construction management. It is the clearinghouse for all City and regional transportation functions, including serving as a liaison to the Southwest Ohio Regional Transit Authority.
